 ■ knee

#### Dear Colleagues,

The comprehensive course aims to teach musculoskeletal ultrasound and is designed to learn the practice of standard ultrasound examinations.

For that purpose, the key anatomic structures are discussed for each joint and emphasis is placed on training each participant individually in practical sessions. This is guaranteed by the presence of experienced teachers and by the limited number of participants (maximum 24) accepted for each training session.

We look forward to seeing you in Brussels,

**Stefaan Marcelis,**  
**Tjeerd Jager,**  
**Kurt Vanderdood &**  
**Michel de Maeseneer**

### Sunday, December 13, 2015

08.00 – 09.00 **Lecture US ankle**
